

Problemas e dúbidas habituais no uso das listas de correo

- Erros habituais
 - Os envíos agrupados (Digest) non se ven correctamente
 - A mensaxe non se distribúe na lista
 - Acepta a mensaxe pero a deixa pendente de aprobación por parte do moderador.

Erros habituais

Os envíos agrupados (Digest) non se ven correctamente

En versións anteriores do xestor de listas de correo mailman, o formato por defecto, en texto plano, amosábase correctamente en todos os clientes de correo, non é así cos resumos na nova versión, é preferible que na configuración das opcións de subscripción se indique que se usa o formato MIME ou Resumo.

Esta preferencia pódese cambiar lista por lista, ou de xeito global para conta de correo

1. De xeito global por conta

- a. Ir a "Mailman settings", no menú da parte superior dereita

The screenshot shows the top navigation bar of the Mailman interface. It includes the domain 'listas.uvigo.es', navigation links for 'Listas' and 'Arquivos', and a user profile dropdown menu for 'usuario@uvigo.es'. Below the navigation bar, the page title is 'Listas de correo da Universidade de Vigo'. A red box highlights the user profile dropdown menu, and a red arrow points to the 'Mailman settings' option within this menu. The menu also includes options for 'Conta', 'Posting activity', and 'Saír'. Below the navigation bar, there is a search box labeled 'Find list' and a filter dropdown labeled 'Filtrar por Rol'.

b. Seleccionar "Preferencias Globais"

Mailman Settings usuario@uvigo.es

Subscripcións **Preferencias Globais** Preferencias por Dirección Preferencias por Lista

Delivery status Habilitado Deshabilitado
Set this option to Enabled to receive messages posted to this mailing list. Set it to Disabled if you want to stay subscribed, but don't want mail delivered to you for a while (e.g. you're going on vacation). If you disable mail delivery, don't forget to re-enable it when you come back; it will not be automatically re-enabled.

Delivery mode Normal
If you select summary digests, you'll get posts bundled together (usually one per day but possibly more on busy lists), instead of singly when they're sent. Your mail reader may or may not support MIME digests. In general MIME digests are preferred, but if you have a problem reading them, select plain text digests.

Receive own postings Si Non
Ordinarily, you will get a copy of every message you post to the list. If you don't want to receive this copy, set this option to No.

Acknowledge posts Si Non
Receive acknowledgement mail when you send mail to the list?

Hide address Si Non
When someone views the list membership, your email address is normally shown (in an obscured fashion to thwart spam harvesters). If you do not want your email address to show up on this membership roster at all, select Yes for this option.

Receive list copies (possible duplicates) Si Non
When you are listed explicitly in the To: or Cc: headers of a list message, you can opt to not receive another copy from the mailing list. Select No to receive copies. Select Yes to avoid receiving copies from the mailing list

c. Cambiar el tipo de entrega (Delivery Mode)

Mailman Settings usuario@uvigo.es

Subscripcións Preferencias Globais **Preferencias por Dirección** Preferencias por Lista

Delivery status Habilitado Deshabilitado

A mensaxe non se distribúe na lista

Acepta a mensaxe pero a deixa pendente de aprobación por parte do moderador.

1. Indica como razón "Message has implicit destination"

Razón: A mensaxe debe enviarse á lista indicando esta como destinatario principal ("To:"), non reenviarse ou enviarse como Bcc:

Solución: Enviar como destinatario principal da lista: To:
